Display**Liquid Retina display**

13.6-inch (diagonal) LED-backlit display with IPS technology;² 2560-by-1664 native at 224 pixels per inch

500 nits brightness

Color

Support for 1 billion colors

Wide color (P3)

True Tone technology

Battery and Power³

Up to 18 hours video streaming

Up to 15 hours wireless web

Built-in 53.8-watt-hour lithium-polymer battery

40W Dynamic Power Adapter with 60W Max

USB-C to MagSafe 3 Cable (2 m)

Fast-charge capable with 70W or higher USB PD power source

Charging and Expansion

MagSafe 3 charging port

3.5 mm headphone jack

Two Thunderbolt 4 (USB-C) ports with support for:

Charging

DisplayPort

Thunderbolt 4 (up to 40Gb/s)

USB 4 (up to 40Gb/s)

MagSafe 3

Thunderbolt 4 (USB-C)

3.5 mm headphone jack

External Display Support

Supports up to two external displays:

- Two displays up to a native resolution of 6K at 60Hz or 4K at 144Hz
- One display up to a native resolution of 8K at 60Hz or 5K at 120Hz or 4K at 240Hz

Supports up to two external displays over a single Thunderbolt port

Simultaneously supports the built-in display at full native resolution

Thunderbolt 4 (USB-C) ports support native DisplayPort 1.4 speeds (up to HBR3) with DSC capability

Video Playback

Supported formats include HEVC, H.264, AV1, and ProRes

HDR with Dolby Vision, HDR10+/HDR10, and HLG

Audio Playback

Supported formats include AAC, MP3, Apple Lossless, FLAC, Dolby Digital, Dolby Digital and Dolby Atmos

Keyboard and Trackpad

Backlit Magic Keyboard with:

78 (ANSI) or 79 (ISO) keys including 12 full-height function keys

Touch ID

Ambient light sensor

Force Touch trackpad for precise cursor control and pressure-sensing capabilities; supports Force clicks, accelerators, pressure-sensitive drawing, and Multi-Touch gestures

Wireless	Apple N1 wireless networking chip
	Wi-Fi 7 (802.11be) ⁴
	Bluetooth 6
	Thread networking technology

Camera	12MP Center Stage camera with support for Desk View
	1080p HD video recording
	Advanced image signal processor with computational video

Audio	Four-speaker sound system
	Support for Spatial Audio when playing music or video with Dolby Atmos on built-in speakers
	Spatial Audio with dynamic head tracking when using supported models of AirPods, AirPods Pro, and AirPods Max ⁵
	Three-mic array with directional beamforming
	Voice Isolation and Wide Spectrum microphone modes for enhanced voice clarity in video calls
	3.5 mm headphone jack with advanced support for high-impedance headphones

Operating Requirements	Line voltage: 100V to 240V AC
	Frequency: 50Hz to 60Hz
	Operating temperature: 50° to 95° F (10° to 35° C)
	Storage temperature: –13° to 113° F (–25° to 45° C)
	Relative humidity: 0% to 90% noncondensing
	Operating altitude: tested up to 10,000 feet
	Maximum storage altitude: 15,000 feet
	Maximum shipping altitude: 35,000 feet

Size and Weight

Height: 0.44 inch (1.13 cm)
Width: 11.97 inches (30.41 cm)
Depth: 8.46 inches (21.5 cm)
Weight: 2.7 pounds (1.23 kg)⁶

8.46 inches (21.5 cm)

0.44 inch (1.13 cm)

Operating System

macOS

macOS is the world’s most advanced desktop operating system. It includes easy-to-use, powerful features that help you be more productive and creative, Apple Intelligence, and seamless ways to use iPhone with Mac.

Apple Intelligence⁷

Apple Intelligence is the personal intelligence system that helps you write, express yourself, and get things done effortlessly. With groundbreaking privacy protections, it gives you peace of mind that no one else can access your data — not even Apple.

**MacBook Air
and the
Environment****MacBook Air is designed to reduce
environmental impact:⁹**[See the MacBook Air Product
Environmental Report \(PDF\)](#)**Progress toward Apple 2030**

Apple 2030 is our commitment to be carbon neutral for our entire carbon footprint. Our plan to decarbonize products is rigorous and focuses on transitioning to low-carbon electricity, designing with recycled and low-carbon materials, and prioritizing lower-carbon ways of shipping products, like ocean freight.

[See Apple's commitment >](#)**Materials**

MacBook Air is made with 55% recycled content,¹⁰ including:

100% recycled aluminum in the enclosure and trackpad gel plate

100% recycled cobalt and 95% recycled lithium in the battery

100% recycled gold plating in all Apple-designed printed circuit boards and all connectors

100% recycled rare earth elements in all magnets

100% recycled tin solder in all Apple-designed printed circuit boards

90% recycled steel in the keyboard feature plate and trackpad beam

Energy

50% of manufacturing electricity for MacBook Air is sourced from low-carbon electricity¹¹

ENERGY STAR® certified¹²

Packaging

100% fiber-based packaging¹³

Waste

No established final assembly sites generate waste sent to landfill as part of Apple's Zero Waste Program¹⁴

Smarter chemistry¹⁵

All of the materials used in Apple products, accessories, and packaging covered by the requirements of our [Regulated Substances Specification](#) which was one of the first in industry to restrict the use of key substances of concern. See the latest [Environment Progress Report](#) to understand Apple's recent efforts in phasing out these chemistries.

Pay monthly at 0% APR

You can pay over time when you choose to check out at Apple with Apple Card Monthly Installments.[†]

-
- 1GB = 1 billion bytes and 1TB = 1 trillion bytes; actual formatted capacity less.
 - Screen size is measured diagonally. The displays on the 13-inch and 15-inch MacBook Air have rounded corners at the top. When measured as a standard rectangular shape, the screens are 13.6 inches and 15.3 inches diagonally (actual viewable area is less).
 - Testing conducted by Apple in January 2026 using preproduction 13-inch MacBook Air systems with Apple M5, 10-core CPU, and 8-core GPU, and preproduction 15-inch MacBook Air systems with Apple M5, 10-core CPU, and 10-core GPU, all configured with 16GB of unified memory and 512GB SSD. Wireless web battery life tested by browsing 25 popular websites while connected to Wi-Fi. Video streaming battery life tested with 1080p content in Safari while connected to Wi-Fi. All systems tested with display brightness set to 8 clicks from bottom and keyboard backlight off. Battery life varies by use and configuration. See apple.com/batteries for more information.
 - Wi-Fi 7 available in countries and regions where supported.
 - See support.apple.com/en-us/102596 for supported models.
 - Weight varies by configuration and manufacturing process.
 - Apple Intelligence is available in beta. Some features may not be available in all regions or languages. For feature and language availability and system requirements, see support.apple.com/121115.
 - iMovie, GarageBand, Pages, Numbers, and Keynote are available on the Mac App Store. Downloading apps requires an Apple Account and a device that is compatible with the OS version required for each app. iPhone Mirroring is not available in all countries and regions.
 - Data accurate as of product launch.
 - Product recycled or renewable content is the mass of certified recycled material relative to the overall mass of the device, not including packaging or in-box accessories.
 - We estimate the percentage of electricity-related emissions in our manufacturing that is sourced from low-carbon electricity by attributing to our carbon model low-carbon energy procured by our suppliers in the prior fiscal year, based on the supplier manufacturing allocations at time of product launch. Included in this number is only low-carbon electricity that Apple or its suppliers have procured as part of Apple's Supplier Clean Energy Program.
 - ENERGY STAR and the ENERGY STAR mark are registered trademarks owned by the U.S. Environmental Protection Agency.
 - Breakdown of U.S. retail packaging by weight. Adhesives, inks, and coatings are excluded from our calculations.
 - All established final assembly supplier sites — those that have been Apple suppliers for more than one year — for MacBook Air are third-party verified as Zero Waste by UL LLC (UL 2799 Standard). UL requires at least 90% diversion through methods other than waste to energy to achieve Zero Waste to Landfill (Silver 90–94%, Gold 95–99%, and Platinum 100%) designations.

15. Apple’s Regulated Substances Specification describes Apple’s restrictions on the use of certain chemical substances in materials in Apple products, accessories, manufacturing processes, and packaging used for shipping products to Apple’s end-customers. Restrictions are derived from international laws or directives, regulatory agencies, eco-label requirements, environmental standards, and Apple policies. Every Apple product is free of PVC and phthalates except for AC power cords in India, Thailand (for two-prong AC power cords), and South Korea, where we continue to seek government approval for our PVC and phthalates replacement. Apple products comply with the European Union Directive 2011/65/EU and its amendments, including exemptions for the use of lead such as high-temperature solder. Apple is working to phase out the use of these exempted substances for new products where technically possible.

† Apple Card Monthly Installments (ACMI) is a 0% APR payment option that is only available if you select it at checkout in the U.S. for eligible products purchased at Apple Store locations, [apple.com](#), the Apple Store app, or by calling 1-800-MY-APPLE, and is subject to credit approval and credit limit. See [here](#) for more information about eligible products. Existing customers: See your Customer Agreement for your variable APR. As of January 1, 2026, the variable APR on new Apple Card accounts ranges from 17.49% to 27.74%. You must elect to use ACMI at checkout. If you buy an ACMI-eligible product with a one-time payment on Apple Card at checkout, that purchase is subject to your Apple Card’s variable APR, not the ACMI 0% APR. Taxes and shipping on items purchased using ACMI are subject to your Apple Card’s variable APR, not the ACMI 0% APR. In order to buy an iPhone with ACMI, you must select one of the following carriers (prepaid carrier plans are not supported): AT&T, Boost Mobile, T-Mobile, or Verizon. An iPhone purchased with ACMI is always unlocked, so you can switch carriers at any time, subject to your carrier’s terms. ACMI is not available for purchases made at the following special storefronts or when using these discounts in-store at Apple: Apple Employee Purchase Plan; participating corporate Employee Purchase Programs; Apple at Work for small businesses; Government and Veterans and Military Purchase Programs; or on refurbished devices. The last month’s payment for each product will be the product’s purchase price, less all other payments at the monthly payment amount. ACMI is subject to change at any time for any reason, including but not limited to installment term lengths and eligible products. See the [Apple Card Customer Agreement](#) for more information about ACMI.

To access and use all Apple Card features and products available only to Apple Card users, you must add Apple Card to Wallet on an iPhone or iPad that supports and has the latest version of iOS or iPadOS. Apple Card is subject to credit approval, available only for qualifying applicants in the United States, and issued by Goldman Sachs Bank USA, Salt Lake City Branch.

Apple Payments Services LLC, a subsidiary of Apple Inc., is a service provider of Goldman Sachs Bank USA for Apple Card and Savings accounts. Neither Apple Inc. nor Apple Payments Services LLC is a bank.

All communications from Apple and Goldman Sachs Bank USA about Apple Card (including transactional and marketing communications) and customer service support are available in English. Certain communications about Apple Card can be viewed in another language depending on your device language settings. If you reside in the U.S. Virgin Islands, American Samoa, Guam, Northern Mariana Islands, or U.S. Minor Outlying Islands, please call Goldman Sachs at 877-255-5923 with questions about Apple Card.
